

Nirosh Sivanesan

Engineer Specialized in Artificial intelligence

Profil

Artificial Intelligence Engineer specializing in cutting-edge Vision-Language Model (VLM) training research, including the development of a foundational AI model for medical chest X-ray analysis. Proven expertise in innovative methodologies integrating physical modeling and machine learning for predictive maintenance.

Work Experience

- 2023 – Sept. 2025
HEIA SeSi Institute | 1700 Fribourg
Research Associate
Designed a digital twin methodology to automate industrial monitoring, leveraging AI-driven predictions to optimize component lifespan and reduce operational downtime.
- 2020
Liebherr Machine SA | 1630 Bulle
Engineer Intern
12-month internship across various departments ranging from production and technical office to hydraulic and thermal engine R&D.
- 2019
Elis Cleanroom | 2555 Brugg
Customer Service – FR, DE, EN
Facilitated trilingual client relations and service management, resolving complex inquiries in a multi-language environment.
- 2012 – 2018
Family Business | 2300 La Chaux-de-Fonds
Owner
Management and development of a commercial activity within a family business (Restaurant and retail)

Activities and Interests

- Member of the Swiss jury – Prix Goncourt for French literature, 2025 edition
- European finalist and 2nd place in Switzerland – Eurobot 2022
- Circus arts (acrobat) – Théâtre de l'Heure Bleue 2010
- Regular participation in sports and a keen interest in culture and innovation

Général Dufour 155, 2502 Bienne

Education

- **University of Applied Science of Fribourg – HEIA**
BSc in Mechanical Engineering
Bilingual FR – DE
Graduated in 2023
- **University of Bern**
MSc in Artificial Intelligence in Medicine
BME Best Thesis in AI Award 2026
Graduated in February 2026

Skills

- Machine Learning / Deep Learning
- Computer Vision
- Python / C++
- 3D Design/ Modeling, Validation and Simulation (FEM)

Languages

- Tamil | Mother tongue
- French | Mother tongue
- English | C1
- German | B2
- Portuguese | A2
